JOCKEY CLUB CONTROL ROOM FACILITY UPGRADES

Jockey Club

We upgraded the control room of the Jockey Club and made some significant improvements. The upgrade included high-speed internet access and improved audio and video systems. Steve Perich (IT Manager) and Jim Fetter (Retired Jockey Club Manager) were instrumental in completing this upgrade. This upgrade was covered by funding from the California Department of Food and Agriculture which included the change of carpeting in the Jockey Club. The modernized control room also features a more efficient layout to facilitate quicker response times when dealing with emergencies.

BEFORE

AFTER

Larger screens were installed with a superior audio and video system.
