# What You Need to Know This Week Week of March 20, 2023

The County of San Mateo distributes this weekly communications & resource sheet to county leaders, communicators and partners to help inform discussions with their respective audiences and help them serve as trusted messengers. Please also follow the County on <u>Facebook</u> and <u>Twitter</u> and share posts on these topics and others on your channels.

### Now is the Time to Prepare for Emergencies: Know Your Zone

- The best time to prepare for any <u>potential disaster is now</u>, not when the lights go out or emergency managers are issuing evacuation orders.
- To prepare for possible evacuations, for instance, emergency managers have carved the Peninsula into more than <u>300 zones</u> on an online, publicly available map supported by Zonehaven, a California-based company under contract with the County of San Mateo.
- Each zone is assigned a short code. All residents can enter an address to find <u>your</u> zone.
- In an emergency, first responders will issue evacuation or other orders and advisories based on the zones. This information will be pushed out via the news media, social media such as Twitter, emergency alert notifications and other platforms.
- Sign up for <u>SMC Alert</u> to receive emergency notifications.
- Find additional emergency planning tips.
